

4G LTE / UMTS / HSPA / GPRS GSM VPN-Router

General information:

RUT950 is compact LTE router with high speed wireless and Ethernet connections. Internal LTE modem can reach download rate of up to 100 Mbps. Router supports the IEEE802.11n as well as IEEE802.11b/g standards and provides wireless receiving and transmitting rate of up to 300 Mbps. External antenna connectors make it possible to attach desired antennas and to easily find the best signal location.

Key Features:

- ✓ LTE with up to 100 Mbps downlink and 50 Mbps uplink.
- ✓ Quadband UMTS and GSM
- ✓ Complies with IEEE 802.11n, IEEE 802.11g, IEEE 802.11b wireless standards
- ✓ Complies with IEEE 802.3 and IEEE 802.3u standards
- ✓ Four Ethernet ports
- ✓ Durable aluminium housing
- ✓ External antennas
- ✓ Integrated OpenVPN, IPSec and Dynamics DNS
- ✓ Backup WAN function
- ✓ Ping reboot function
- ✓ Dual SIM

Technical data:

LTE networks	800/850/900/1800/1900/2100/2600 MHz networks
HSUPA/HSDPA/UMTS networks	850/900/AWS1700/1900/2100 MHz networks
GSM/GPRS/EDGE networks	850/900/1800/1900 MHz networks
Antenna	2x SMA → LTE RP-SMA → Wi-Fi
Indicators	4x Ethernet LEDs, 1x Power LED, 1x status LED, 5x connection strength LEDs
Temperature & Humidity	Operation temperature -40° C to 75° C, Operating humidity 10% to 90% Non-condensing, Storage temperature -45° C to 80° C Storage humidity 5% to 95% Non-condensing
Physical Dimensions/ weight	106 x 80 x 46 (H x W x D) / 250 g
Power supply	100-240 VAC → 9 VDC wall adapter
Input voltage range	7-30 VDC
Power consumption	< 7W

This router is ideal for people who'd like to share their internet on the go, as it is not restricted by a cumbersome cable connection. Unrestricted, but not forgotten: the router still supports internet distribution via a broadband cable, simply plug it in to the wan port, set the router to a correct mode and you're ready to browse.
